

Laura Daniela Ungureanu

medical aesthetician

I am a licensed Aesthetician with over 18 years experience in skin care and medical aesthetics. After graduating from the Atlanta School of Esthetics in Georgia, I spent six years at Chateau Elan Spa, as the Skin-care Lead Aesthetician and Trainer. Subsequently I developed the aesthetics practice at Oh-la-la Salon Spa in downtown Decatur, providing various non-invasive quality spa services such as facials, chemical peels, enzyme peels, microdermabrasion, microcurrent, eyelash extensions, eyelash and eyebrow tinting, and body waxing. Created, designed and implemented all company policies and procedures, researched and introduced new therapies and skin care products, and addressed all clients concerns, building a significant clientele list.

In October 2009 I moved to the world of medical aesthetics.

I am currently a licensed professional, certified in Microdermabrasion , Microcurrent, Lymphatic Drainage Massage, Physician's Choice™ Peels, MD Formulation glycolic peels, Natural Difference enzymes peels, SkinMedica peels, 3D eyelash extensions and Jane Iredale mineral make-up. Recently I added another skincare line to my training: Skin Script .

In addition to skincare I certified in Everlasting Brows- microblading - semipermanent makeup and permanent makeup (tattoo ).

Portfolio of services includes waxing, also. I love shaping eye brows and have 20 years of experience with waxing various parts of the body using different wax for all kind of skin types.

My passion is to educate my clientele on good skin care habits and preventive anti-aging maintenance. My goal is to continue to further develop professionally, add to my list of services, and maintain high levels of professional standard that my clients have learned to expect.
